## 8 clever solutions for truly easy, faster ironing

with ShoulderShape and PerfectFlow Express cover

Philips Ironing Board with ShoulderShape makes your ironing easier. Now you can iron with less rearranging and in less time. Its innovative PerfectFlow Express cover enhances your iron's steam flow to give you 33% faster results.

### Fast ironing

- Easy shirt ironing: unique ShoulderShape
- Faster ironing with 3D textile: PerfectFlow Express cover

### Convenient ironing

- Keep the cord out of the way: special cord holder
- Hang garments after ironing: convenient hanging rail
- Extra cord length for your iron: integrated power plug
- Convenient ironing for everyone: adjustable height

### Safe ironing

- Extra stability: anti-slip feet caps
- Perfect combination with steam irons: safe iron tray
- Designed for safety: child and transport lock

# PHILIPS

# Highlights

## Unique ShoulderShape

With the unique ShoulderShape, shirt ironing is easier than ever. This innovative shape helps you to iron shirts with little rearranging, saving you time and effort.

## PerfectFlow Express cover

The innovative PerfectFlow Express board cover is designed for use with steam irons. It features a porous 3D textile that enhances the steam flow inside the cover structure, efficiently using the steam to improve ironing results, speed and comfort.

## Integrated power plug

Now the cord of your iron is even longer! You can plug the iron directly into the power plug,

located under the surface of the board and utilise the full length of the cord of the iron for the ultimate freedom of movement.

## CordGuide

CordGuide is a unique Philips accessory, designed to keep the cord of your steam iron out of the way. It fixes the cord in one spot on the board, so that it is not creasing already ironed parts. It is easily detachable, therefore you can attach it anywhere on the board.

## Convenient hanging rail

No need to look for a place around you to hang your freshly ironed shirts. You can hang garments directly after ironing to the convenient hanging rail.

## Stabilizing foot caps

This ironing board was designed with careful attention for extra stability. Special design of the legs with anti-slip foot caps makes the board stable and safe.

## Iron tray that stops steaming

The stable and safe iron tray with extra stabilizing rod. The rod is designed to tilt your iron to a certain angle at which the continuous steaming will stop. Suitable for both left and right-handed.

## Child and transport lock

Child and transport lock prevents accidental collapsing of the board while ironing and also keeps the board closed during storage.

# Specifications
